| Assessor Comments  | A Quality line of well bred Angus PTIC cows that are rising five year old, cows are bred from herd that has a foundation of Kilburnie Angus bloodlines. These young cows are large frame with softness, length and femininity. A regrettable sale only due to a reduction in herd numbers due to a change in direction. Joined as apart of their normal program cows will commence calving in late July onwards with the vet stating the majority of females were 6.5 to 7 months in calf at time of assessment. Cows were joined to Good Quality Tandara and Branga Plains Angus bulls. Please note another 38 Black Baldie cows are on offer in this same sale. What this line lacks in numbers it makes up in Quality. Don't Miss !! |               |                                     |
