Assessor Comments	A Quality line of well bred Black Baldie PTIC cows that are rising 4 -7 years old, cows are bred from herd that has a foundation of Kilburnie Angus bloodlines. These young to mid age cows are large frame with softness, length and femininity. A regrettable sale only due to a reduction in herd numbers due to a change in direction. Joined as apart of their normal program cows will commence calving in late July onwards with the vet stating the majority of females were 6.5 to 7 months in calf at time of assessment. Cows were joined to Good Quality Tandara and Branga Plains Angus bulls. Please note another 7 Angus cows that are on offer in this same sale. Cows that produce quality calves. Don't Miss !!
