Other Joining Details	At vet testing comment was made that 14 heifers joined in early cycle , 4 later.

Temperament

Yards	Crush	Paddock
Quiet: 16 head Slightly Stirry: 2 head	Quiet: 18 head	Quiet: 14 head Slightly Stirry: 4 head

Easily walked quietly with dogs and bikes some distance to the yards. Cattle were good to handle through their own familiar yards. Ran to the mob whilst dogs and people were pressuring.

Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	A nice small line of quality PTIC Angus heifers. Principally Good quality EU heifers in fresh store to forward condition. They have been running on good crop with access to roughage.They are improving with warm weather and quality crop. Parraweena has always invested strongly in quality seed stock breeding this attractive run of Angus heifers with length and scope. Bred with flexibility to satisfy most high quality markets including both grain or grass. Consider 5 head medium frame and balance good. All are very feminine soft types that will grow on into quality matrons. Impeccably bred with them being part of a Rainman AI program covered after by VG Killain bull. I noticed 2 head with old light eye scar in the eye. One had a moist weeping eye that was treated with terramycin spray (no Whp) The flexibilty to grow on and have progeny suitable for most high value markets with a strong marbling history. Joining bull pedigree & EBVs in the photos as well as a photo of Rainman.
