Temperament	<table><tr><th>Yards</th><th>Crush</th><th>Paddock</th></tr><tr><td>Quiet: 26 head Slightly Stirry: 7 head</td><td>Quiet: 20 head Slightly Stirry: 13 head</td><td>Temperament not assessed in Paddock</td></tr></table> <p>Heifers were a pleasure to handle right throughout the drafting, weighing & photography process. Heifers were seen to fold back on each other & a little bit agitated but at no stage became aggressive. Heifers only became agitated in crush when they were being mouthed which is normal. This process was very quick as heifers are well handled through Skeldon yards.</p>			Yards	Crush	Paddock	Quiet: 26 head Slightly Stirry: 7 head	Quiet: 20 head Slightly Stirry: 13 head	Temperament not assessed in Paddock

Handled With	Bikes , Vehicles																		
Assessor Comments	A Quality Quiet line of Angus heifers presenting in forward/store to forward/prime condition, PTIC 5-8months to Kaytee Low birth weight Angus bulls. Opportunity presents in purchasing top genetics which are due to start calving late June for a 3 month period making them a late winter/early spring calf. These heifers display great weight for age & will benefit any intended breeding program for many years to come. The Scott family pride themselves on producing genetically proven females and spare no expenses in sourcing the top Angus bloodlines for there commercial herd. Note: 3 heifers were seen to have a blue eye scarring only in one eye & 1 heifer both eyes which was deemed non detrimental. Due to some heifers visually displaying late terms of pregnancy take into consideration for long trucking & fit to load will apply/assessed @ delivery. Good breeders are the future of the cattle industry. BUY WITH UTMOST CONFIDENCE. Vendor will have the colored PTIC heifers in same sale.
