	Cattle were generally good to handle with only a few not cooperative while drafting. Worked through the race and crush well, with a few fidgety when on the scales.		
Handled With	Bikes , Vehicles		
Assessor Comments	A good line of Angus Heifers, medium frame, PTIC to low birthweight Burenda Angus bulls to calve from 11/10 for approximately 10 weeks. They were bred from medium to large frame cows and were weaned into a tight Autumn/winter last year. They have enjoyed a reasonable summer and have grown into nice medium framed females and present in fresh forward condition. There is the odd cloudy eye in mob, not considered detrimental. One heifer in mob approximately 4 months older than the rest of the mob.
