Cattle were generally good to handle with only a few not cooperative while drafting. Worked through the race and crush well, with a few fidgety when on the scales.

Assessor Comments	A good line of Angus charolais cross Heifers, medium frame, PTIC to low birthweight Burenda Angus bulls from 2 to 5 months. They were bred from medium to large frame cows and were weaned into a tight Autumn/winter last year. They have enjoyed a reasonable summer and have grown into nice medium framed females and present in fresh forward condition. There is the odd cloudy eye in mob, not considered detrimental.
