Assessor Comments	Quality line of Nareen Station bred Angus Heifers, purchased off Auctions plus late October with the purpose of joining and selling as PTIC heifers at 7 months in calf. Selling early due to a personal accident. Opportunity now presents itself to purchase well renowned Nareen Station heifers well under their potential value. Heifers were vetted in calf at 17 weeks on the 30th of April. Joined to low birth weight Te Mania Angus bulls S623 and S979. Two lines offered in the same sale 85 head in total. Several heifers have remnants of pinkeye scars that do not appear to be detrimental. All health treatments are up to date
