1 Head	Some white on udder

Assessor Comments	A line of Younger well bred Organic Certified Angus cows with nice young calves at foot. These young cows are medium to larger framed and would benefit from more abundant feed as it has been tight in the southern western district. They are on a short green pick and getting pasture hay 3 days a week, but would really respond to better nutrition. These cows are well bred and are being sold to lighten the stocking rate and to convert to a Fully Spring Calving herd. With good feed would be cycling and ready for the bull in no time.
