Assessor Comments	Two lots of 212 of the same ewes SIL 100% to the Redline Charollais Rams. Great way to put 424 scanned ewes together, one mark. Large frame easy care ewes with 50mm on their backs already, fresh forward condition. Ewes stood up well to a very wet summer and mates extremely well on Native summer grasses. Highly recommended for both Type and mating status. Ewes had lice when purchased but were dipped, ewes have been inspected thoroughly and with solid confidence we can say they are lice free. (Vendor asked me to add this comment for transparency)
