Assessor Comments	A Great line of pure Mountain Dam ewes rising 3 year old November shorn. These ewes have been classed in and traditionally kept for breeding purposes with top rams purchased from the Mountain Dam stud. These ewes have not had the chance to any Rams so can be tucked away for the Rams of your choice. Ewes present in great forward condition and have been fed with barley and clover hay, vendor is moving into a dry flock and the reduction of these ewes are only due to the seasonal conditions.
