Assessor Comments	An outstanding line of 240 SIL young Aussie White breeders from a top line program. This line is one of three lines of 240 ewe lms run through the gate, hence the vendor has another two lines of 240 identical ewe lms in this sale. Also there is another 400 tops in this catalogue. These ewe lambs are very well grown, in excellent condition, from great breeding and have scanned in lamb to quality AW rams for a late winter lambing. Ideal for flock improving or establishing a new flock, I'd expect these ewes to perform in any country. Great opportunity to put good numbers together as vendor has a total of 1235 SIL ewe lambs in this sale in 5 lots. All ewe lambs have been EID tagged & all were weighed through an auto draft at assessment. Range of lms 45-54kgs, ave 50.3kgs.
