Vendor Bred: Yes

Stock History: These steers have been bred and weaned on property. The steers are out of Ultrablack and Georgina Gold Composite cows. A portion do have some Wagyu content in them from the cows.

Lifetime Traceable: 100% of cattle in this lot are Lifetime Traceable

Bloodlines: Steers are by Palgrove and Nindooinbah Ultrablack bulls.

Grazing Conditions: These steers have been grazing on good Mitchell and Buffel downs that has enjoyed a massive season. Grass is considered fattening feed with still plenty of green shoot in it.

Returned same

Burr/Seed in Coat: Noogoora burr noted in some tail brushes.

HGP Status: The owner declares that the cattle have not been treated with HGP at any period of their lives

Chemical Residue: Clear - No known history.

J-BAS Score: 6

Vendor Comments: A good run of ORGANIC Ultrablack cross steers that are showing plenty of frame and no excessive condition. These should really bounce ahead on either crop, grass or on feed. Only mouthed a sample of the heaviest No2's.

Temperament

Quiet: 60 head Slightly Stirry: 10 head Stirry: 3 head	Quiet: 55 head Slightly Stirry: 10 head Stirry: 8 head	Temperament not assessed in Paddock

Mustered in a large mob of approx 1,200 to a relatively small set of portables in a congested environment yet very well and expertly handled with very good stockmanship the steers flowed through the race and crush well. A very small number were

	aggressive or agitated when confined or isolated yet settled well when returned to the mob. Cattle were turned out directly after assessment with horses and bikes and left the yard quietly.

Assessor Comments	Buyers a good to very good quality line of ORGANIC USDA, NOP and GAP certified steers that will suit all export feeder and/or organic programs. Steers are progeny of cows purchased Georgina Gold and Ultrablack programs and are noted performers on either crop or on grain. These steers presented in mainly store to forward store condition so as a result I would expect plenty of compensatory gain given the right feed conditions. Buyers be aware the photos and videos are representative of both the heavy line and light line of black steers due to yard space. The heavy line has been bang tailed with the light steers left as long tails. Noted about 4 steers with a small amount of white face that could be from a Hereford influence from many generations past. Also noted the odd steer with a small amount of fly rub on the neck and a couple of steers with old blue eye scarring but no sight issues here. Note there are numerous lots from Terrick in this sale, all 1 brand.
