Heifers behaved very well through yards. Only a couple stirred up slightly in crush but settled well once returned to mob. Considering first time back in yards since weaning it is a testament to the Wansey herds temperament

Assessor Comments	Buyers here is an opportunity to secure a VGQ line of Wansey Downs Vendor bred Preg tested empty weaned heifers. These heifers are the crossbred draft being predominately out of large framed Beefmaster cows by Rosevale Santa and Fairview and Lambert Charolais bulls, they stand on good bone and have the depth, length and structure to make Ideal oats heifers to take through to the Lucrative Pasture Fed programs as they have never had antibiotics, grain or HGP in their lives. Please note a few heifers observed with horns were only small weaner horn and two observed with slight blue blight scarring in one eye , neither considered detrimental .Vendor has 4 decks of British Euro sisters this sale.
