Vendor Comments	The annual turnoff of weaners. Past buyers have expressed considerable satisfaction with the performance of these cattle. The season was fairly tight in the later half of 2023 when these were calved so about 30kgs lighter than last year.

Temperament

Yards	Crush	Paddock
Quiet: 127 head	Quiet: 117 head Slightly Stirry: 10 head	Temperament not assessed in Paddock

These quieten down very well since weaning commenced with all the bellowing for the cows pretty much gone. Most handled very easily at assessment through the crush & in the race however there were the odd few that were a bit keen in the race. They had never been through the race prior to assessment, and they behaved like they had been up there numerous times. Very quiet out in the bigger yards when being photographed and videoed. They do respond well to bikes and dogs in the paddock.

Handled With: Bikes , Dogs

Notable Traits

	Traits
4 Head	Blue eye scar
3 Head	In total run of 254 steers ringed the day before assessment.
1 Head	Light wart on head

Assessor Comments

Buyers, a line of Red Angus steers PCAS ELIGIBLE that come with a very good reputation and have attracted repeat buyers who have commented that these produce above average performance. These will suit restockers to grow out and background for domestic or export feeder markets. The hard work of breeding and weaning them has been done. Steers very clean in the muzzle with no nasal discharge that is sometimes prevalent in weaners at this time of year indicating good health. There are 3 in total that were ringed the day prior to assessment but no male characteristics noticeable. These bred on lighter country, history would suggest they will really hit their straps if they are exposed to crop or winter herbage on heavier improved country. These a little lighter than last year but the season was tight when they were calved but show zero negative sign of growth as a result. A total of 254 in the run to be delivered as a "run of the gate" into even lines if multiple buyers.
