Handled With	Very easy Steers to handle nothing played up in the crush or in the yards. You can walk around them in the paddock. Came off the cows easily, overall well handled cattle. Bikes , On foot , Vehicles		
Assessor Comments	Very good quality steers that have had no set backs and are on the move. Steers will continue to go forward on grain or grass. They have been in the front lane of our weaner sales in past years. There is variance in the weights due to a protracted calving the difference is age not quality related. Note due to the lack of spare dry yards the video/photos show both the steers and heifers together , the heifers have yellow ear tags and the steers white. Note the tail that appears in the video has been taken out, Access is truck and dog, if the purchaser needs a semi we can deliver to Moruya sale yards , we can organise local trucks if required. This breeder has another lot of Heifers in this sale as well as two lots from an adjoining property.
