Notable Traits	Traits		

Assessor Comments	Annual draft of the well known Donna Valley spring drop limousin steers. Steers have been yard weaned almost 3 weeks and are up to date with veterinary treatments. The steers are bred on pure Donna Valley blood and press in store to forward store condition showing good growth and frame for age, and carry typical purebred Limousin carcase characteristics. These steers continue to enjoy repeat buyer competition from specialty domestic feeders targeting ultra high yields for specific butcher orders.
