Heifers generally show great temperament in yards & paddock. A very small percentage of heifers showed some nervousness in the yards with a number of new faces around.

Assessor Comments	Quite simply... An outstanding draft of heifers! 'Pardoo Cattle Company' have invested heavily in genetics from 'Te Mania' & 'Rennylea' with a strong focus on temperament, growth, moderate cow weight & IMF. They were weaned in mid March & have been running in containment where they have been 'trough trained' on to a ration of maize silage, clover silage & barley straw. Recent health treatments include; Bovilis MH + IBR, 5 in1 & Dectomax Injectable. This represents an opportunity to secure Angus genetics from THE ABSOLUTE TOP SHELF! They come with my highest recommendation!!!
