Vendor Comments

Very happy with the way these steers are growing and how quite they are would normal grow out to 12-14 months as I know the potential they have.

Assessor Comments	35 Angus and Angus X steers bred by Pathfinder bulls that are 7-9 months of age and showing good weight for age with testing conditions. This is Gumbowie's complete drop of Spring calving steers. They present in good fresh condition and would continued growing out well if shown the right feed. They averaged 201kg at assessment and ranged between 142-250kg. There 5 black Baldy steers and the rest are straight black. The pink marks are just to show the steers that are under 200kg. Please note that the same vendor also has 31 PTIC heifers in the Eastern states sale that might help with numbers for trucking.
