Assessor Comments	A very good line of Brangus and Brangus/Brahman cross cows PTIC in calf to CPR Registered Brangus bulls, offered for the second time on Auctions Plus the cows present an opportunity to secure a very good quality breeder in calf with a Brangus calf bred from the best Brangus Genetics available. The cows have responded to a recent backline and have very clean slick shinny coats. 1 x large black Brangus cow has a slight roman nose which doesn't show any effect to the cow, and 1 x large brown Brangus cow has an old scar high up on her near side rump, with no effect to the cow. It must be noted that the cows are located in a tick infected region of Qld and it is the purchasers responsibility to arrange tick clearance at their cost if they intend to travel interstate or to a tick free region of Qld.
