Assessor Comments	Buyers a line of PTIC cows joined to Angus bulls, cows are 3-5 years old & predominantly Angus. These cows are ideal breeders to rebuild numbers or start a breeding herd with. They were good to handle & worked well through the yards. Of the cows handled 5 had white on the udder, the 2 cows with a blue eye showed no signs of it affecting their vision. Calves were weaned on the 25/5/24, 1 cow was dry at assessment. 25 head < 4 months & 15 > 4 months in calf. Buyers please note mud on cows is due to water in melon holes in the paddock.
