Temperament

Yards	Crush	Paddock
Quiet: 63 head Slightly Stirry: 9 head	Quiet: 61 head Slightly Stirry: 9 head Stirry: 2 head	Temperament not assessed in Paddock

All heifers flowed through the race well during the assessment with some becoming anxious when held to be mouthed. They exited the crush sensibly and settled when returned to their mates. Whilst respectful they were keen to travel as a mob when worked through the cooler, (refer to video).

Assessor Comments Buyers this is a rare opportunity to purchase PB Wagyu heifers from a respected, well established herd. The Fucheng Woodlands herd has been highly acclaimed for the meat quality, and feedlot performance, of their PB herd. Heifers display the bred characteristics, growth for age, and carcass data, to be considered as future breeders in most commercial Wagyu herds. Alternatively may suit most feedlot applications. Heifers have never been joined, but have been Pregnancy Tested empty to provide confidence to either breeders or feeders. Four heifers observed with single pink eye scarring, not considered detrimental. 144 heifers were all mouthed at assessment and whilst the majority are milks there were 18 that were 2 tooth, giving the indication that the majority are on the verge of cutting teeth. Offered as run out the gate of 72 from a total of 144 heifers offered. Heifers will be split 5 each way until the final 4.
