Assessor Comments	Quality line of rising 4 year old PTIC Angus X Murray Grey females. Females are PTIC for a 13 week calving to commence late July 2024. Joined to high indexing Bongongo & Reiland Angus bulls and one YavenVale Poll Hereford bull. These fertile & productive breeders had weaners taken off a couple of months ago and had done an excellent job raising their calves. These young females are only being offered to the market due to a change of directions for the vendor. Temperament was very good with these cows and would be suitable stock for all levels of livestock handling abilities. Good opportunity to purchased quality young breeders!
