Temperament

Yards	Crush	Paddock

	Quiet: 17 head Slightly Stirry: 2 head	Quiet: 15 head Slightly Stirry: 4 head	Temperament not assessed in Paddock

Cattle were easy to handle whilst in the yards. They became slightly agitated as they were unfamiliar with the process and lots of people in the yards, but quickly settled down. There was very little trouble moving the cattle up the race and during the weighing and assessing process. 2 head became slightly stirry in the yards and 4 head in the crush, as they had only recently been preg tested. They quickly settled once rejoined with the mob.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	Presenting a very smart line of PTIC Heifers on behalf of the Orton family of Bowmans Forest. Heifers are only being offered due to high pregnancy test rates and are surplus to requirements. These medium framed heifers are Black Aqua Angus blood and are joined to a Landfall Bull (Keystone Landfall M413). Heifers are 4 to 6 months in calf and are due to start calving in September, making them ideal to add to an existing breeding program. Please see media for full satisfaction.
