Preg Scanned?	No, this lot was not pregnancy scanned.			
Assessor Comments	Complete herd dispersal of the SG Wilson sheep herd, property sold. Often market toppers at Tamworth lamb sale for many many years and very well regarded lambs by local buyers as some of the districts highest quality lambs annually. All the genetics are 100% from Tom Bulls Primline maternal composite stud, Holbrook. The vendors never spared expense on genetics purchase and always looked to improve their sheep herd. The transition into these ewes has increased lambing percentages and lamb carcass yields to make them a genuine bottom line improver for anyone wanting to get that edge in the sheep industry \$\$\$\$\$\$. Sheep are well handled and clean healthy breeders for any successful sheep operation looking to add a most genuine run of sheep.
