Assessor Comments	Very Good line of Egelabra blood maiden Merino ewes. SIL to Cordale White Suffolk rams at 130%. Ewes are to commence lambing mid May for 6 weeks. These ewes present a very good opportunity for a trade to sell a suckers late spring. They are good western bred ewes that will not disappoint as replacement breeders. Ewes will be delivered as a run out the gate of 660, twinners and singles will be evenly split. please note ewes are 2 marks, approximately 50% vendor bred and 50% bought in as ewe lambs out of South West QLD. The vendor has asked for a prompt delivery due to the ewes being close to lambing.
