Assessor Comments	A line of 95 'Annalara' blood station mated rising 5 & 6 year old western bred White Dorper ewes, with more than 20 years of breeding behind them. The Hurley family have been purchasing carefully selected 'Annalara' White Dorper rams for the past 12 years, and in the last 3 years have introduced 'Tullinga' blood rams. These ewes have been joined to 'Annalara' and 'Tullinga' White Dorper rams since the 29/03/24 at 3% and will not be taken out until delivery, which I have full confidence most ewes would have joined. A good line of ewes with years of breeding behind them.
