	Excellent	70%		
	Very Good	30%		
Assessor Comments	These Ultrawhite Ewe lambs are all SIL and the undetectables have been taken out. The Ultrawhites are well known for there high levels of fertility and these are proof of that. With an average weight of 48kg and the season the way it is, these ewe lambs are highly productive. They are the tops of there drop and the most productive of there drop as well. They would be a welcome addition to anyone flock, or a great base to start from. This breed of sheep are easy to manage and very good for dollar returns.
