Assessor Comments	37 Gamadale Australian White Ewes W/ 52 Baringa bld Australian White lambs @ foot. Females have proven to be extremely productive for the entirety of their breeding life rearing at least on lamb each year, whilst showing maternal traits true to breed. Ewes are doing an excellent job on a large percentage of fresh lambs at foot, which have in years gone past have reached trade weights by August. All lambs have been marked on day of assessment receiving a Glanery 7in1 +B12. Females have been drenched in the spring of last year and received their annual Glanery 7in1 + B12 booster needle in March. Ewes are being offered due to challenging seasonal conditions. Sound shedders that would be an ideal establishment to any Australian White flock with a guaranteed short return.
