Assessor Comments	Buyers today on offer we have 83 Weaner Steers. Majority of the Steers are of a Santa, Droughtmaster, Brahman Cross Cow herd and are an average weight of 216kg on delivery. All Steers are bred in light forest country and are ready to perform given the right opportunity. The Steers are currently being weaned in the yards, fed Hay at night and tailed during the day. Its a credit to the breed to see how well the Steers have grown. Steers were all very soft and easy to handle on assessment which is a true credit to the Vendor. Please note these cattle are in the Tick area and will require clearing to enter the clean area and this will be at the purchaser's expense, Vendor has pretreated to help this process.
