Assessor Comments	An excellent line of yard weaned steers in fresh forward store condition. Suit to take to a range of premium grain or grass markets. Have never been fed grain or treated with antibiotics. One steer noted with warts around the eyes, one of which is capable of being bumped in transit. There has been some buffalo fly on the steers, they were treated with Exiguard just prior to assessment. No WHP or ESI. There is very slight rubbing around the eyes. Live weight range at assessment 274-341kg as weighed.
