Assessor Comments	Outstanding line of unweaned Angus steers. 60 of these steers are vendor bred and full Eaglehawk blood, 12 steers purchased as calves on cows and a Bald Blair blood. July, August, September drop, very good quality and Angus type, medium frame with lots of volume. Calves will be weaned at delivery, they are very easy and quiet to handle and to process through race system. 2 calves in mid 300kgs at assessment, all the other calves 220-290kgs. 2 or 3 old pink eye scars. Assessors highest recommendation.
