Vendor Comments

Best run of steer calves we have produced, season has been good since December and they have done really well. Obviously the AI sires are helping with thge growth rates and proformance.

Handled With	Very quiet run of Steer calves that were no issue to handle Bikes , Horses , On foot																																								
Assessor Comments	Terrific smaller line of Steer calves that reflect the excellent season since December and the fantastic genetics of the AI sire Cloonys Platanon and the back up Home Bred bull that was by Paratrooper. There is one Steer that was ringed late and whilst he is soft enough the purchaser has the option of not taking him if undesirable or unsuitable. The Vendor is happy to truck the cattle to Moss Vale at their expense to make logistics easier. Highly recommend this line of Steers and whilst they would normally wean before sale the large amount of rain experienced (100-160mm) and predicted for the week it was decided to wean at point of delivery.
