Assessor Comments	A good line of vendor bred July/August drop Kenny's Creek blood Heifers that show good frame and growth for their age.		

Heifers have continued to go forward since weaning in February and are performing well on early winter crop and will continue to do so if given the opportunity. These heifers be ideal to take on as future breeders as well as be equally suited for a trade opportunity throughout the winter months on winter crop. Please note: 3 Heifers have old pink eye scarring that is not detrimental and still have vision out of eyes. Approximately 12 Heifers carry ringworm scarring on the head/ Neck/front shoulder. Please call for further information regarding this.
