Vendor Comments

Steers have performed very well since being weaned. Have been properly handled in and around the yards. Since weaning

the steers have continued to improve whilst being on plenty of hay.

Assessor Comments	A very good line of weaned Santa/hereford infused steers that present in forward store condition. These steers display great shape and depth and would be suited to either backgrounding for feedlot program or taking out to heavy kill weights. They are excellent to handle and have gone thorough the full weaning process. The vendor has been using Rockingham santa bulls and Wirruna Poll Hererford bulls over hereford cows.
