Slightly Stirry: 2 head	Quiet: 10 head	Quiet: 20 head																																																		
	Slightly Stirry: 10 head																																																			
Handled With	Bikes , On foot , Vehicles																																																			
Assessor Comments	These steers are the 2nd draft of 50 out of a line of 180. It is important to note that these are not the tail end - a further 55 lighter steers have been retained. As can be seen from the photos and videos they are very well bred and quiet to handle. These steers are normally carried through the winter and sold as feeder steers or finished into domestic and export markets, they are only being offered due to vendor loosing the use of a long time lease block. These grass fed steers come highly recommended from previous purchasers including Greenhams who have purchased them to finish into their Cape Grim premium product range.
