Assessor Comments	Buyers on offer is a tremendous line of Weaned steers. These cattle show great growth and frame and given the opportunity on quality feed they will power ahead. The Brazil cattle are renowned for the performance on both grass and grain and are sure to impress all buyers. These steers were weaned onto Oats and have done very well in that time. The steers are in the perfect condition to put back on Oats or grass and will grow out to an outstanding line of feeder steers. Please note there is 2 steers that were cut slightly latter then the balance, this is of detriment to the cattle at all. Buyers these are a fantastic line of Angus steers that are sure to impress everyone. Buyers please note the steers assessed as Angus x Angus x are out of Santa/Angus & Angus/Brangus Cows. They show a small amount of either sheath, ear, slick coated or white underline. Plenty of these will suit most 75% Angus programs. Please contact me for greater understanding on breed break up.
