Craigie Station cattle are very well handled and worked quietly through yards. This was the first time these steers had been worked through this set of yards as they were weaned in another set of yards and they work well during the assessment process. A small % of steers became unsettled when confined but were quick to resettled when released back into mob.

Handled With: Bikes , Dogs , Vehicles

Assessor Comments	A line of 67 vendor bred Wagyu cross weaned steers presenting in store condition that had an average weight at assessment of 187.4kg after a -5% curfew. Weaners are out of very good quality Glenlands blood Droughtmaster heifers by Wagyu bulls. Please note; % of steers were dehorned at weaning and have not healed fully. Same vendor has sister lot in this sale.
