Quiet: 50 head Slightly Stirry: 5 head	Quiet: 47 head Slightly Stirry: 8 head	Temperament not assessed in Paddock

these cattle have just been weaned for 5 days, have had limited handling as it has been raining, they flowed through the yards well and stood in a large holding paddock for media. Will benefit from further handling the cattle that did get stirred up soon settled with

Handled With Bikes , Dogs , On foot , Vehicles

Assessor Comments Stage 1 of the "Eastern Hills" herd dispersal, Property has been sold. Buyers this a very nice line of well-bred weaned Angus heifers. They present well and for their age weigh well being only Sept drop calves. These heifers represent the main line of the replacement heifers with non being retained and a tail of 14 removed from mob but in the same sale. They carry genetics from Knowla, Farrer and Bald Blair. These heifers are ideal replacement heifer or alternatively they would make great feeders or taken right through to a Grass MSA job. The Eastern Hills cattle carry a good reputation for perfomance. Vendor has 2 other small lots of heifers in the same sale. Odd heifer noted with a blue eye and some with white on udder. **Please also Note Eastern Hills Clearing sale 2.6.24***

Assessor **Mathew Larkings (Level 1 Accredited)**

Delivery Period 20/05/2024 to 23/05/2024 (4 days)
