	these cattle have just been weaned for 5 days, have had limited handling as it has been raining, they flowed through the yards well and stood in a large holding paddock for media. Will benefit from further handling the cattle that did get stirred up soon settled with

Assessor Comments	Stage 1 of the "Eastern Hills" herd dispersal, Property has been sold. Buyers this a nice small line of well-bred weaned Angus X heifers. They carry genetics from Knowla, Farrer Out of Angus X cows. These heifers could make replacement heifers for someone with a smaller block or alternatively they would make great feeders or taken right through to a Grass MSA job. The Eastern Hills cattle carry a good reputation for performance. Vendor has 2 other lots of heifers in the same sale. Odd heifer noted with a blue eye and some with white on udder. **Please also Note Eastern Hills Clearing sale 2.6.24***
