	Very well mannered calves to handle, especially respective of their breed. Easy to muster, Calves were a bit lost without their mums when they were let back out in the paddock for photos on their own, just wanting to do a bit of marching. Drafted off their mums quietly, and walked through the yards system well. Just a couple that showed some anxious behaviour in the crush, listed above as slightly stirry. Calves with a good mind, that should wean well and keep going forward.

	Traits	
1 Head	Red through coat - Brindle colouring	

Assessor Comments	Very sappy, well looked after young weaners that have never seen a tough day. Cows are doing an excellent job with these calves, with excellent growth for age at just 8-9 months. Running on the side of a hill, with only short, dry basic pastures and some supplementary hay to keep them going. Calves that will go forward after weaning & be ideal to continue on pastures then take in to a feed program in the Spring. Buyers please note. Calves not weaned at time of assessment, please consider this in your delivery adjustments.
