| | and often selling steers well over 400kg at 12months. Pure Yavenvale Hereford Blood, selecting sires in the top 25% for all carcass & growth traits. These females will be ideal heifers to put out with the Bulls of your choice on delivery. Alternatively, these heifers have not been spoilt, and have had to do it tough over these past dry months, just slowly ticking over, and in return, offer some very good compensatory weight gain opportunity and will fly ahead shown some feed. |
