Preg Scanned?	No, this lot was not pregnancy scanned.
Other Joining Details	Rams were removed from the Ewes on day of assessment.
Assessor Comments	Lyon Ag Genuine Primeline Flock Dispersal. Buyers, Lyon Ag presents a fantastic opportunity to secure their complete flock over two lots in this sale of classed in Primeline ewes out of a regimented 13-year breeding program that has sourced Lambpro foundation Ewe genetics and annual Young Gun Lambpro Rams. This lot consists of 164 - 2019/18/17 drop station mated Ewes. The Rams were removed from the Ewes on the day of assessment and subsequently have not been scanned. These Ewes are freshly shorn, are in very good condition, and are well known for raring high performing lambs raised with a high percentage of multiples. Lyon AG select all genetics used within the flock based upon true to type phenotypical traits with emphasis on high muscling, positive fat characteristics, fertility, and black feet. A very good opportunity to enter the Primeline market or as a valuable extension to an existing program. Buyers please note: Vendor has one other lot in this sale.
