Assessor Comments	On offer is an excellent quality line of true to type pure Egelabra blood ewe hoggets. These ewes would be classed as an efficient, moderate medium frame ewe, bred for their excellent wool characteristics and high fertility, proven in their joining with only 18 ewes scanned out dry from this line. Lamb down with peace of mind, having Allandale Charollais rams being used over them, for slippery births with lambs full of vigour and excellent carcass traits. These ewes will be an asset to any operation.
