Odd heifer stirred up in the crush- but quickly settled down once back in the mob.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes
Assessor Comments	On offer is 3 decks of Crossbred heifers that have averaged 269.1 kg curfewed. Ideal heifers to carry on as breeders or for feeder or export markets in the future. These heifers have been weaned and educated through the yards and handle very well in the paddock with a aircraft and capable stockmen on motorbikes. Medium to large frame heifers that should put weight on quickly given the opportunity. They stand on good bone and have the depth, length and structure to make ideal heifers to take through to the heavier weights. These heifers have never had antibiotics, grain or HGP in their lives.
