Assessor Comments	Buyers a great opportunity to secure a Good 4 deck line of fully weaned USDA NOP Organic heifers. Heifers were weaned at assessment and will be fed good quality Organic grassy Lucerne hay and tailed out and educated until delivery. Out of Large to medium framed Simbrah, Charbray and Brahman cross cows by Brangus, Charbray and Brahman bulls, they are best described as predominately crossbred types with a small percentage of higher content heifers in mob, most show good length and bone and depth of breeding to go on to heavy weights. Ideally suited to take through to the Lucrative Organic heavy feeder or slaughter market or alternatively if entering the conventional market they will suit all Pasture fed programs having never been fed grain, no antibiotics or HGP in their lives. The lighter tail has been removed.Please note photos and video were taken after 14 hour curfew heifers have been fully weaned since and a further 5% deliver adjustment made to weights
