			Store	25%
	Yards		Crush	Paddock

Quiet: 17 head

Quiet: 17 head

Temperament not assessed in
Paddock

An extremely well handled mob of weaned steers. These steers get exposed to bikes, dogs, horses and buggies during the weaning program and are handled calmly through the yards. Steers were very quiet to work with throughout the yards and crush. A testament to the breeding and the work the vendor has put into them.

Handled With

Bikes , Dogs , Horses , On foot

Assessor Comments

Buyers here is great opportunity to secure a well handled, well bred mob of quiet, vendor bred Black Simmental cross steers. These steers have been weaned and are only going forward. They present in strong store to forward store condition and show great, easy doing ability. These steers are ideal to go out onto oats. They show great structure, they have good length and bone with plenty of softness and have great growth for their age. Do anything with these steers, they suit the domestic trade market, to take them on to heavier feedlot weights or kept to grow out to bullocks. KBV and Woonallee bloodlines. These steers have undergone a weaner program and are very quiet, easy to handle cattle.
