Assessor Comments	A line of Vendor bred Weaned Angus & Angus cross steers, that were bred on lighter Rocky River country (40km east of Tenterfield). Weaners have been trucked to Vendor's Tenterfield property for assessment and weaning. Steers weighed from 208 - 307kg after a huge 44 hours in the yards to average 249.3kg. Weaners are generally worked with horses and dogs and were good to handle during assessment and will stay in the yards until delivery with access to hay. No weight loss allowance has been made for yard weaning - make your own adjustment. Great opportunity to purchase light weight black weaners that will grow on with improved nutrition. Brother lot in same sale.
