	Steers are well educated through the yards. They were weighed through a weigh box and some steers showed agitation in the confined space. Once steers left confined space they settle back in the mob nicely. Cattle moved throughout yards as a mob. Cattle are handled by experienced stockman and dogs and this showed at assessment. These steers are bred from a large herd and, typical of large mobs of cattle, had some run but easily blocked with dogs.
Handled With	Bikes , Dogs , Horses
Assessor Comments	Well bred small line of Autumn drop strs. Steers are all frame presenting in fresh forward store condition. They carry a clean bill of health and are bred from a well know local herd. They have been running on minimal feed and moving forward.
