Handled With	Calves were very good to handle , odd steer fizzed up a little bit. There were no issues. Bikes , Dogs , On foot , Vehicles
Assessor Comments	A line of well bred Angus Steers which are showing plenty of bone and quality. These are the top draft of steer calves and individually weighed. They have lost there bloom since weaning which will be to the buyers advantage. These steers are ideal to purchase as you are not paying for bloom and will have good weight gains shown feed. 3 steers were removed with a few ringworm , so cannot guarantee there is not any others with singular spots that may have been missed .
