Assessor Comments

A draft of the 'Injemira' weaner heifers. These Heifers are primarily sired by Hazeldean Angus bulls with a percentage of calves sired by AI Sires Chiltern Park Moe and Texas Powerplay. Approximately 15% of the Heifers appear to be sired by Lancaster SimAngus Bulls (3/4Angus1/4Sim) and show slight European characteristics. Heifers display adequate frame despite a young weaning age and are not carrying any excess condition and will do extremely well given the right opportunity, with previous calves reaching feeder and export weights with ease. Please note vendor has another 3 lots in sale totalling 196 weaners.
